**Item :**

Make sure all state profiles are turned in and updated, make sure person in charge for each state is notified to update and submitted.

**Motion:****Key strategic priority areas supported by this activity:**

Profiles are a great advocacy tool, great tools to show to legislatures

**Discussion (Background/Purpose/Advantage/Disadvantages):****Action Taken:**

Members will notify the person in charge of profiles to update and submit them.

---

**Item:**

Provide states a new means of providing other states means to let other states know how they receive funding and promote their programs to legislature.

**Motion:****Key strategic priority areas supported by this activity:****Discussion (Background/Purpose/Advantage/Disadvantages):**

In a AZ new superintendent of public instruction, was invited to participate in FFA and other CTE activities. During Governor's inauguration two chapters were invited to attend and were acknowledged during this event. Discussed High School student certifications through a CTE program

Idaho, continue to place FFA students in front of legislature and Farm Bureau members. Ag umbrellas under CTE, all program areas received an increase in funding.

Montana, Past legislative session they created a google doc with list of legislatures and contact info on one page. This provides easy contact during times where a funding bill is going through that affects funding. Students, teachers or stakeholders can make contacts to legislature.

OR, OATA has no paid staff with 95% attendance at state meetings. Have provided grass roots effort in getting chapters involved with telling their story of how these programs affect students and the impact it provides. Sponsored legislative days where students attended legislative

sessions and spoke on bills that were going to affect spending. Mainly based on teachers sponsoring these type of events.

WA, worked to get legislative passed for state affiliations, but didn't pass. Sponsors FFA day at the capital where members are present at the capital during legislative sessions. WA had a teacher pay raise.

NV Funding has been increased by %20 for career and tech ed for each student.

**Action Taken:**

---

**Adjournment:**
